Forecast for Wednesday 14 Sep 2022

Weather: Mist and shallow fog patches forming in the valleys in the early hours, primarily in the north, before clearing during the morning, with cloud across the south also clearing. A largely fine and dry day follows, with prolonged sunny intervals. Some patchy cloud may push into the north for late afternoon and early evening but it will remain dry into the night with clear spells.

Chance of cloud-free hill tops above 600m: 90%.

Low cloud and visibility: Any cloud first thing and then into the evening mostly above the summits with just an isolated patch down to 700m. Clear views for much of the day with very good visibilities, but locally very poor in early valley fog.

Meteorologist's View

A fine day to be out on the hills.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Tue 13 Sep 2022	0mm	0mm	0.2mm

Forecast for Thursday 15 Sep 2022

Weather: Isolated valley mist and fog patches clearing readily after dawn. A mixture of scattered cloud and sunny spells throughout the day, these most frequent in southern parts of the park. Staying dry throughout the day and into the evening.

Maximum wind: 15mph northwesterly winds on the summits.

Chance of cloud-free hill tops above 600m: 85% or greater.

Low cloud and visibility: Cloud largely above the summits throughout the day, allowing for good views of surrounding areas. Visibility predominantly very good, but poor in any early mist and fog.

Temperature: **Valleys:** Plus 10 Celsius, rising to plus 19 Celsius.
At 600m: Plus 6 Celsius, rising to plus 10 Celsius.
Freezing level: Above the summits.
